Standard

SET

DRAFT

SAW GUIDE

The Saw Guide is "PORTABLE" and may be taken to any job and set up quickly, for faster, easier and more accurate work.

The Heavy Clamp holds the Saw Guide on a secured 2" plank, and a straight 1" board serves as a work guide.

The Clamping Lever provides vertical adjustment on column for depth of cut, and the adjustment screw quickly levels track to the work.

SPECIFICATIONS

Maximum Travel "Cross-cut" 21".

Any angle up to 180 degrees.

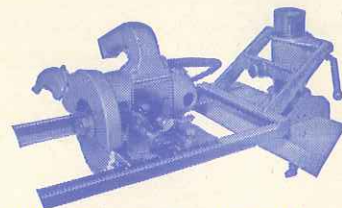

Length overall 36".

Height 13".

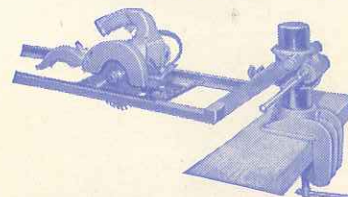

Net Wt. 25 lbs.

Shipping Wt. 35 lbs.

No. 1858-A—Combination 6" & 8" Saw Guide

RIP SAWING—The saw is adjusted for the desired size and material is moved under the saw, any length

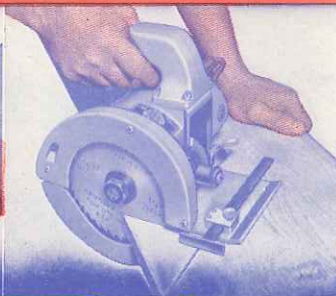

CROSS CUTTING—The slide rails provide effortless saw action and smooth, accurate cuts.
